

~~loss~~ Hall Mills - 106, 182

our ~~losses~~. If you would loan me the money until I can paint and do some little work on the property that is needed to be done may be in a year's time I can return the money an interest. The property will continue to increase in value for at least 10 years yet. and then will not ever go right-flat. for it is in between two fast growing and very wealthy developments. I am five thousand dollars in debt - and if I could only get - 2500.<sup>00</sup> - Now would save me and in 2 years time my 2 youngest children will be of some help. Where before I have not had their's. If I could see you & could explain more reasonably. But if you are interested in assisting me please write at once. So I could stop the steps they have threatened. You are rich, you will not regret it - or miss it either. It would make me very happy. Respy.
